

CATÁLOGO DE ESTACIONES METEOROLÓGICAS DEL ESTADO DE QUERÉTARO

Recopilado, revisado y calculado por
*Enriqueta García, Teresa Reyna, Rosa-
lía Vidal y Ma. Cristina Medina*

En este catálogo están incluidos los datos de temperatura y precipitación mensual y anual, de las estaciones meteorológicas que han funcionado en el Estado por un periodo variable de años, dentro del lapso 1921-1968.

Se tomaron como fuentes de información los archivos del Servicio Meteorológico Mexicano, de la Secretaría de Recursos Hidráulicos y los de la Comisión Federal de Electricidad.

Cuando por alguna razón se dejaron de registrar los datos en las tarjetas de los archivos originales, fue necesario hacer los cálculos correspondientes y éstos se pusieron entre paréntesis para que se pudiera llevar a cabo la programación adecuada en el Centro de Cálculo Electrónico de la U.N.A.M.

Hacemos patente nuestro agradecimiento a las Instituciones arriba mencionadas por habernos permitido el acceso a sus archivos.

ESTADO DE QUERÉTARO

Latitud: 21°14'
Longitud: 99°34'
Altitud: 1 150 m

TEMPERATURA MEDIA (°C)

Estación: Ahuacatlán
